

NORTH STAR POLICY INSTITUTE

Estimated General Education Revenue Under 2017 Special Session E-12 Finance Act (Chapter 5) vs. Inflation-Adjusted Baseline

Information presented below is based on House Research general education revenue analysis compiled during the 2017 special legislative session. This information represents the best estimates as of that point in time, but do not represent the final actual general education revenue of public schools. However, this is the best source of information to use for purposes of determining the impact of legislative actions in isolation from all other factors that impact school general education revenue. The inflation adjustment to the baseline amounts is based on the Implicit Price Deflator for State & Local Government Purchases.

School Districts Grouped Alphabetically by House Legislative District

Amount in parentheses after school district name indicates percentage of 2010 decennial population of the school district in the legislative district.
