

Losing Ground: State Disinvestment in Students

By Jeff Van Wychen, Fiscal Consultant

NorthStar
POLICY ACTION

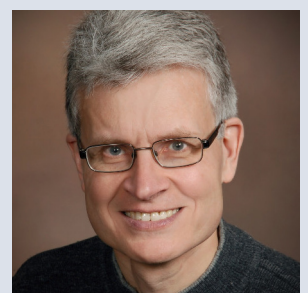

ABOUT NORTHSTAR

North Star Policy Action is an independent research and communications institute that is dedicated to improving the lives of everyday Minnesotans by advancing bold ideas that change the conversation and bring communities together. We develop and promote data-driven solutions to persistent problems that allow working people to thrive, no matter who they are or where they live.

ABOUT THE AUTHOR

Jeff Van Wychen has over 30 years of experience in researching, analyzing, and writing on state and local tax and fiscal issues. His past work has included serving as senior policy adviser in the Office of Governor Mark Dayton, Director of Tax Policy & Analysis at Minnesota 2020, and contract work for several local government and non-profit organizations, including the Coalition of Greater Minnesota Cities, Metro Cities, the Minnesota Rural Education Association, and Minnesota Lakes & Rivers Advocates.

MDE Data Reveals Sharp Decline in Real State Aid

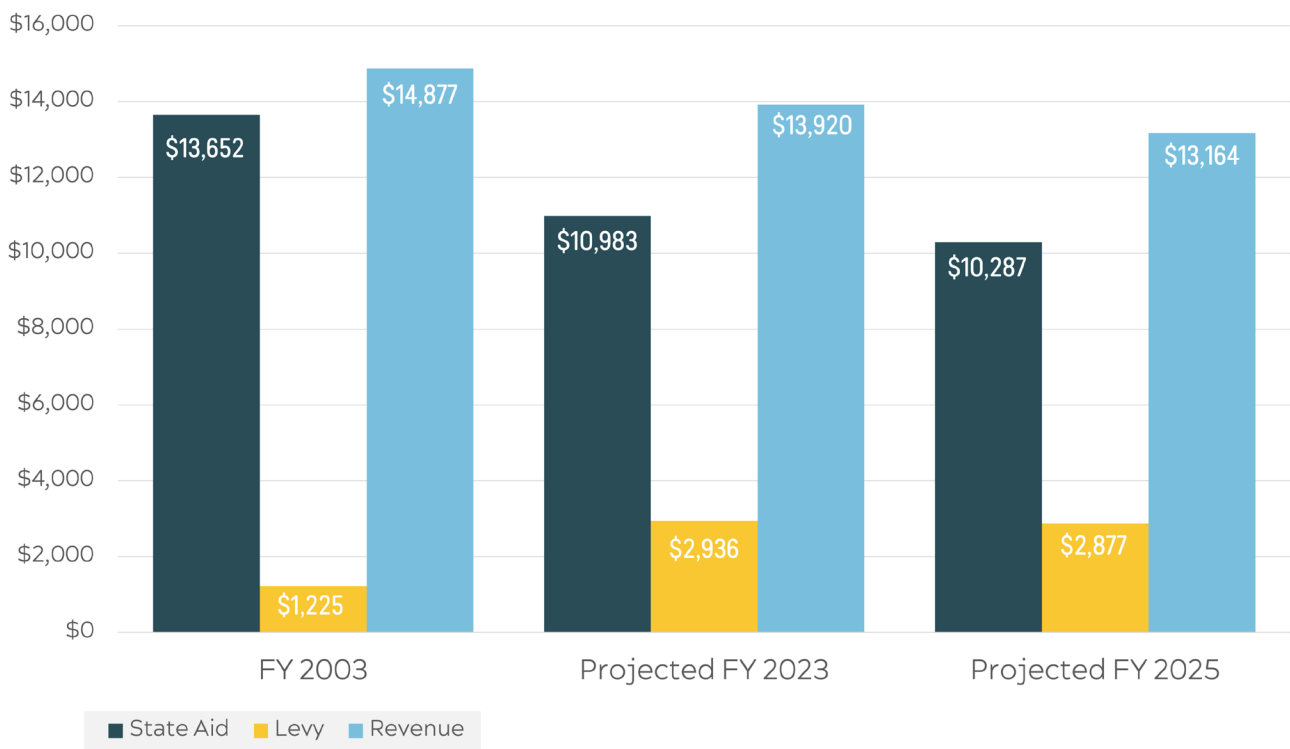

Over the last twenty years, per pupil state aid received by Minnesota school districts declined by 20 percent, after adjusting for inflation. Despite a 140 percent increase in per pupil school property taxes, real per pupil school district revenue has fallen by over six percent over this period. To make matters worse, the trend in declining state aid and school district revenue is expected to continue plummeting over the next two years, assuming no changes to current state law.

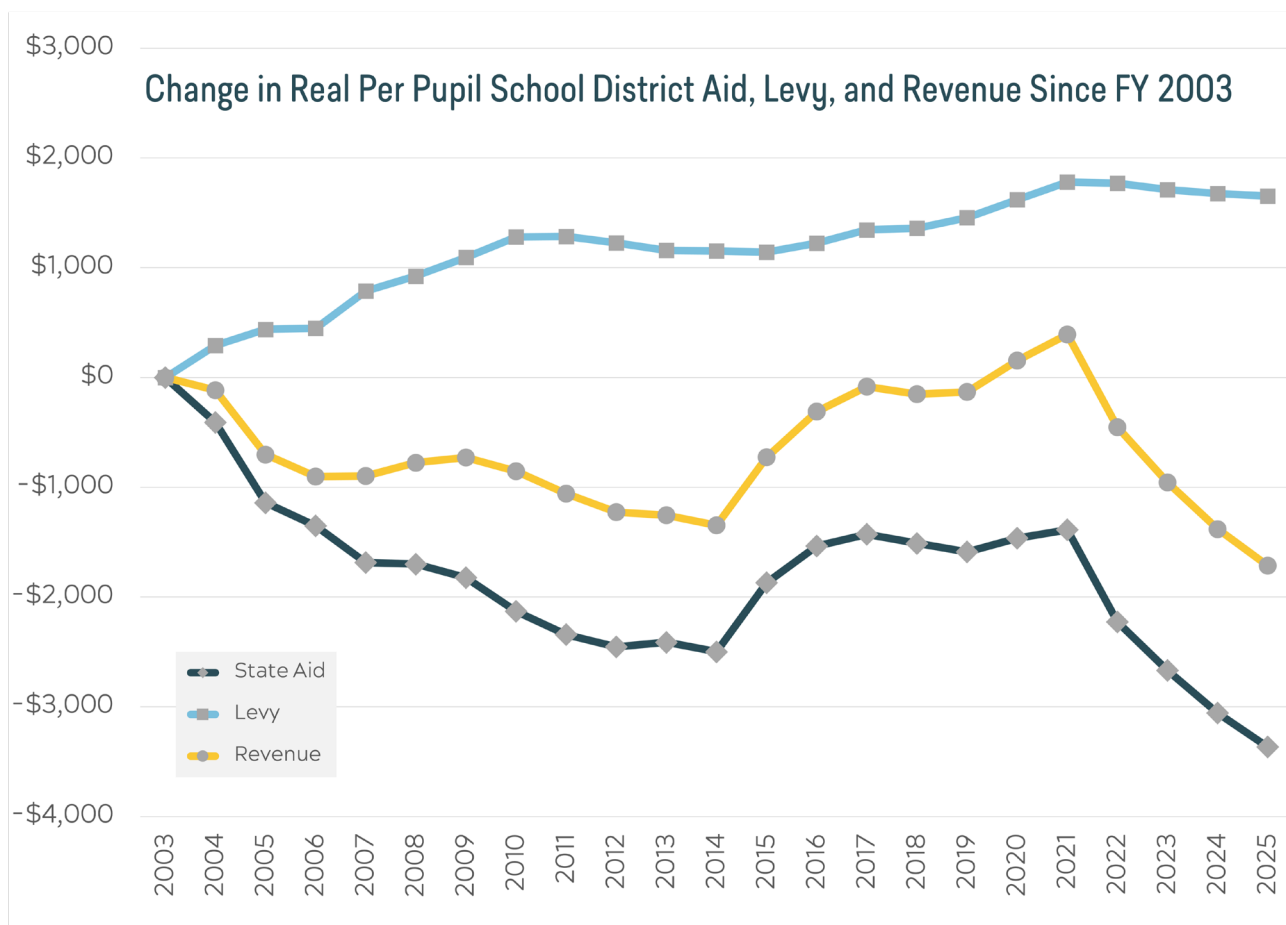

These findings are based on a North Star Policy Action analysis of school general fund finances released by the Minnesota Department of Education (MDE) at the conclusion of the 2022 legislative session. Amounts presented in this report are adjusted for inflation based on the Implicit Price Deflator for State and Local Government

Purchases, as published by MDE, and expressed in constant current year (fiscal year 2023) dollars per pupil. The MDE information used here commences in FY 2003—the year the state made massive changes to the property tax and state aid system, including the virtual elimination of the general education property tax levy.

Real (i.e., inflation-adjusted) per pupil state aid to Minnesota school districts declined from a peak of \$13,652 in fiscal year (FY) 2003 to a projected \$10,983 in FY 2023—a decline of \$2,669 per pupil. A large increase in school property tax levies—from \$1,225 in FY 2003 to \$2,936 in FY 2023—prevented an equally large decline in school district revenue. However, even with these large property tax increases, school district revenue per pupil still declined from \$14,877 in FY 2003 to \$13,920 in

Per Pupil School District Aid, Levy and Revenue in Constant FY 2023 Dollars

FY 2023—a drop of \$957 per pupil. Declines in per pupil aid and revenue are projected to continue into FY 2025 under current law.

The most dramatic drop in real state aid to school districts occurred from FY 2003 to 2014, when it fell by \$2,499 per pupil—an 18.3 percent drop. Due to aid increases enacted by Governor Dayton and the legislature, nearly half of the decline in per pupil aid from FY 2003 to 2014 was recovered from FY 2014 to FY 2017. Real per pupil aid stayed level over the next four years, before commencing another sharp decline in FY 2022 and 2023. By FY 2023, real per pupil state aid had plummeted below the FY 2014 nadir. Without changes to current state law, the drop in aid is expected to continue over the next two years. By FY 2025, real per pupil state aid is projected to be \$3,365—nearly 25 percent—less than in FY 2003.

A sharp increase in school property taxes offset some—but not all—of the increase in state aid. As a result, total school district general fund revenue declined by 6.4 percent from FY 2003 to present. As a result of declining state aid, real per pupil school revenue is projected to drop by another 5.4 percent over the next two years, reducing school district general fund revenue to its lowest point since the monumental school finance changes implemented in FY 2003.

North Star’s analysis of MDE data reveals significant variation in aid, levy, and revenue trends among Minnesota’s school districts. However, there are several trends common to a vast majority of districts. Of Minnesota’s 329 school districts:

- ★ 324 experienced a decline in real per pupil state aid from FY 2003 to 2014;

- ★ 306 experienced increases in real per pupil state aid from FY 2014 to 2017 that were insufficient to replace the losses from FY 2003 to 2014;
- ★ 323 experienced a decline in real per pupil state aid from FY 2017 to 2023;
- ★ 321 experienced an increase in real per pupil school property taxes from FY 2003 to 2023;
- ★ 268 experienced property tax increases from FY 2003 to 2023 that were insufficient to replace the loss of state aid, resulting in a net decline in real per pupil revenue;
- ★ 302 experienced a real per pupil state aid cut in excess of 10 percent from FY 2003 to 2023;
- ★ 207 experienced a real per pupil revenue decline in excess of 5 percent from FY 2003 to 2023.

The immediate future does not look any brighter for Minnesota school districts. Unless there are changes to current law, 320 of Minnesota's 329 school districts are projected to experience a decline in both real per pupil state aid and real per pupil revenue over the next two years (FY 2023 to 2025).

The MDE information analyzed by North Star Policy Action reveals a stark and undeniable trend: real per pupil state aid to school districts has dropped precipitously from FY 2003 to 2023. Despite school property tax hikes over three times higher than the rate of inflation, real per pupil district revenue has also fallen significantly over this twenty year span. While the trend in declining state aid and district revenue is projected to continue over the next two years, this outcome can be averted if state policy makers act during the 2023 legislative session to restore at least a portion of past aid reductions.

Data and Methods

This report contains information on school general fund revenue, state aid, and levy for each Minnesota school district and for all school districts in aggregate for the period from fiscal year (FY) 2003 to projected FY 2025, based on school general fund aid, levy, revenue, and pupil count data compiled by the Minnesota Department of Education (MDE) as reported in 2022 end-of-session (EOS) financial trends spreadsheet. (The only exception to this rule is FY 2003 to 2005 data for the Ada-Borup-West school district, which are not included in the 2022 EOS financial trends spreadsheet; data for this district for these three year were taken from MDE’s November 2019 financial trends spreadsheet.) Amounts for FY 2022 through FY 2025 are MDE projections.

This analysis includes the breakdown of school general fund revenue into their levy (i.e., property tax) and state aid components. Revenue totals reported by MDE in the general fund financial trend spreadsheets and cited in this report are equal to the sum of levies plus aids. Fiscal year school levy amounts are payable in the preceding calendar year. For example, levies for FY 2023 (which began on July 1, 2022) are paid in calendar year 2022. The revenue categories listed below are among those included in MDE’s 2022 EOS financial trends spreadsheet. (Not every category of revenue listed below is received in every fiscal year.) Some revenue categories consist entirely of state aid, some consist entirely of levy, and some consist of a combination of aid and levies.

Basic	Deferred Maintenance
Declining Pupil	Health and Safety
Extended Time	Long-Term Facilities
Compensatory	Q Comp + Teacher Development/ Improvement
Compensatory Pilot	Career Technical
English Learner & EL Concentration	Integration
English Learner Cross-Subsidy Reduction	Telecommunications
Training and Experience	Literacy Incentive
Sparsity	Charter School Lease
Small Schools	School Readiness
Transportation Sparsity	Early Childhood Family Education
Operating Capital	Indian Education
Equity	Initial Levy
Gifted and Talented	Operating Capital Levy
Transition	Equity Levy
Referendum	Transition Levy

Local Optional	Referendum Levy
School Land Trust Endowment	Location Equity Levy
Special Education Regular, Gross	Career Technical Levy
Special Education Excess	Miscellaneous Levies*
Special Education Cross-Subsidy	Integration Levy
Transition Disabled	Deferred Maintenance Levy
Alternative Facilities	Health and Safety Levy

**"Miscellaneous levies" include reemployment, safe schools, ice arena, severance, swimming pool, lost interest, tree growth, building/land lease, other capital, and other general levies.*

The dollar amounts in this report are expressed in constant FY 2023 dollars per pupil. The conversion of nominal dollars (i.e., dollars unadjusted for inflation) to constant FY 2023 dollars is based on the Implicit Price Deflator for State and Local Government Purchases (S&L IPD) from the U.S. Bureau of Economic Analysis as reported in MDE's 2022 End-of-Session financial trend spreadsheet. The rationale for using the S&L IPD to adjust state and local government revenues and expenditures for the effects of inflation was discussed in a 2016 North Star article. Conversion to per pupil amounts is based on adjusted average daily membership (AADM) as reported by MDE.
